✓ processes and materials tailored to employee information from SuccessFactors

✓ full independence in setting up the application configuration

SAP SuccessFactors ♡

Available on the SAP App Center

easy-to-use application for learning needs collection and management integrated into SAP SuccessFactors LMS

■ improve adaptability in the process of approving requirements.

■ automatically allocate training to the relevant group of people.

■ offer employees clear visibility and the ability to self-manage in a prompt way.

■ utilize a strong decision-making tool designed to align with a company's inherent structure.

■ enhance efficiency by ensuring adherence to legal regulations.

give more value to your learning processes!

The Arago SOFT solution offers an ideal way to handle training requests on the move, providing clear updates on assignment statuses. It effectively manages both scheduled and ad-hoc requests, regardless of whether they are inside or outside the catalog. The app streamlines assignments through automation and permits self-service selection based on item types or approval processes.

Arago SOFT is a component of the comprehensive and flexible Arago Success2Learning package and can be seamlessly integrated with other SAP SuccessFactors modules like Performance and Goals Management.

Additionally, Arago SOFT can be incorporated into Training Management Systems like Training Orchestra.
