Introduction

Easy Clone creates a fast and secure way for organisations to expedite their testing and troubleshooting activities. Control specific records and data fields to copy and scramble to protect your data's integrity while reducing the time spent on updating your HR and Payroll systems significantly.

Easy Clone eliminates the need for manual data duplication or full system copies. It significantly minimises cost, effort, and risks during testing, issue resolution, troubleshooting and training activities.

What Easy Clone helps you accomplish

COPY FROM CLOUD & ON-PREMISE

Copy and scramble data from both SAP HCM and SAP SuccessFactors Employee Central with just a button press. Easy Clone seamlessly integrates between the two systems, making it easier for you to finish upgrade testing in less time while ensuring all the data you need can be included.

REDUCE TESTING EFFORTS

Streamline your HCM and Payroll upgrade, enhancement pack and hot pack testing process by automating the generation and scrambling of your test data.

PROTECT DATA INTEGRITY

Your data will never leave your SAP / SAP Success Factors system while you scramble and mask sensitive fields and results. Avoid expensive audit findings caused by exposure of sensitive information and manual data manipulation.

What happens when you use Easy Clone

Control which records and data fields are copied. Confidential information like salary, personnel number, social insurance information and custom Employee Central MDF can be selected, cloned, and scrambled with just a button press.

Switch between SAP HCM and SAP SuccessFactors data sources seamlessly or use both in one go.

Optimise your testing processes and protect your data integrity with Easy Clone.
