one portal

A single portal that consolidates processes and workflows for Employee Self-Service/Manager Self-Service scenarios.

A single portal bringing together processes and workflows for ESS/MSS scenarios, such as:

Build processes in which only the relevant fields are included, so that these processes are easily recognizable and easy to use by both employees and management.

Build processes from fields of objects of information from various SAP SuccessFactors modules.

Integrate existing customer forms, where not all fields from SAP SuccessFactors need to be known.

Digitisation and automation are key areas for every HR department. Specifically, automation offers a significant reduction in administrative tasks, allowing HR professionals to concentrate more strategically on staff and organisational development.

Yet, HR Forms, designed for SAP SuccessFactors, is set to revolutionise this. This innovative product promises to make a lot of the administrative workload obsolete. Arago aims to ease the burden on HR teams by integrating and harmonising processes, ensuring that they can be seamlessly managed end-to-end within the HR system.
