digital adoption extension

myMeta for a quick, easy and efficient digital solution adoption

the compass to guide, help, engage and train users in adopting any new digital solution

When you start using a new software programme, it can be a bit tricky for staff and managers to get their jobs done. But with myMeta, you can say goodbye to those user manuals!

You'll now have live, on-screen support to help you use the software effectively.

Digital Adoption Extension: myMeta is a real answer to a real challenge

- ✓ minimise costs and periods of training and onboarding.
- ✓ optimize learning and performance results on software.
- ✓ empower, engage and motivate your employees.
- ✓ cut down Help Desk requests on how to and data correction.
- ✓ enhance the user experience without modifying your application.

a digital guidance embedded into your web applications

myMeta is an independent software, compatible with the most popular web applications, in particular SAP SuccessFactors, Workday, Fieldglass, SAP Concur. myMeta is a tool for the whole company population, no matter their positions, their locations and working languages. Users are guided step by step, click by click, in their navigation in the tool, with embedded guidance, short and clear guidelines as well as explanatory videos.
